

Environmental Policy Statement

The Company is committed to promoting standards and objectives orientated towards maintaining a clean and safe environment. Industrial Roped Access techniques by their nature promote environmentally 'friendly' working methods.

1. Ensure that operatives are suitably trained, adequately instructed and supervised in their duties, in the safe use of equipment and materials and in the correct disposal of controlled waste.
2. Provide proper resources to ensure competent advice on safety and environmental matters.
3. Comply with environmental measures required by law and act positively to prevent environmental pollution arising from its operations.
4. Ensure that all relevant information is sought from suppliers of materials and equipment and only use licensed waste handlers for disposal.
5. Raise environmental awareness throughout the Company and take all practicable steps to prevent pollution of the environment.
6. Keep records of the production and disposal of controlled waste.

Best Regards,
