

HEALTH, SAFETY, AND ENVIRONMENTAL POLICY STATEMENT

NOV Tuboscope is committed to protecting the health and safety of our employees, our customers, the public and the environment. It is the policy of NOV Tuboscope to conduct its business in a manner consistent with all applicable health, safety and environmental laws and regulations. Where laws and regulations do not exist or reflect best management practices, we will adopt our own health, safety and environmental standards. NOV Tuboscope strives for continuous improvement in our health, safety and environmental performance. In furtherance of this policy the company will endeavor to;

- Comply with applicable health, safety and environmental laws and regulations.
- Develop procedures and provide guidance to facility managers and employees concerning health, safety and environmental requirements.
- Ensure that our employees, contract employees, and subcontractors are aware of their role and responsibility to fulfill and sustain NOV Tuboscope's health, safety and environmental procedures and policy.
- Integrate health, safety and environmental requirements in facility and/or equipment design and modification activities throughout the company, including business acquisitions.
- Search for ways to eliminate or reduce the release of contaminants into the environment through pollution prevention and minimization programs.
- Require facility managers to inform the NOV Corporate Director of Health, Safety and Environmental and/or the General Counsel immediately upon receipt of any regulatory agency citation or notice of violation.
- Require employees to inform management of any potential health, safety or environmental situation that could place employees, the public and/or the company at risk.

Isaac Joseph
President NOV Tuboscope
